## INTERNATIONAL CONFERENCE

(in hybrid mode)

ON

# Trends in Global Climate Change and its Impact on Biodiversity

(TGCCIB 2026)

30<sup>th</sup> Oct, 2026 – 1<sup>st</sup> Nov, 2026

Organized by

**University Department of Botany**

(Under the aegis of IQAC)

**Magadh University, Bodh Gaya, Bihar**

In collaboration with

**Indian Botanical Society &**

**Department of Botany, Gaya College, Gaya**

## ABOUT THE CONFERENCE

In the current scenario of global climate change, TGCCIB 2026 provide an opportunity (in hybrid mode) to brings researchers, academicians, students, industry experts, and policymakers to discuss their ideas and scientific concept to address the emerging environmental challenges and its impact of the biodiversity. This international platform will provide and promote interdisciplinary discussion and collaboration, and will advance the research and ideas to support in the sustainable development goals.

## SUB-THEMES OF THE CONFERENCE

- Environmental sustainability and ecosystem dynamics
- Phylogeography (Phytogeography & zoogeography), evolution of species and species richness, and diversity
- Genetic resources, genomic variations and its adaptation in the changing environment
- Molecular and chemical diversity across the domain of life
- Mathematical modelling and simulation of the ecosystem organization
- Environmental pollution
- Climate change and its impact on the cultural heritage, in the context of the socio-economic aspects

## UNIVERSITY DEPARTMENT OF BOTANY

The University Department of Botany, Magadh University, Bodh Gaya was established and started its journey in 1962 with the academic and research activities of M.Sc. and Ph.D. courses. Prof. T. C. N. Singh was the founder Head of this Department. During course of time, this Department evolved as one of the premier research institute in the Bihar state with well equipped infrastructure for the specialized area of research, like Cytogenetics, Plant Pathology and Environmental Biology. With the development of high throughput techniques and technology, the curriculum of the M.Sc. And Ph.D. courses got updated and revised time to time, to meet the national and international standard.

The Departmental Botanical Gardens have a rich diversity of plants. To maintain a competitive research environment, the Department has also renovated its oval garden into the 'Botanical Park' that will harbors 'Medicinal and Herbal Garden', 'Fossil Park', and 'Aqautic Ecosystem', which provide a new dimension in the Ph.D. research work. This department has maintained its recognition as a potential academic as well as research institute. Recently, the University Department of Botany got awarded with research grant from the prestigious funding agencies, like UGC and DST, to promote research activities in the area of plant and microbial genomics, genome analysis, microbial physiology and molecular biology. The research work and reports have been published in the various national and international journals from reputed publishers, like Nature Springer, Elsevier, etc. To meet the requirement of NEP 2020, Department also got sanction to start various certificate courses like, Biofertilizer Technology, Mushroom Farming, and Computational Genomics.

## MAGADH UNIVERSITY

Magadh University is one of the oldest university in the Bihar state which was founded in the year 1962 at the land of enlightenment, Bodh Gaya. The foundation of this university was laid by the eminent philosopher and then-President of India, Dr. S. Radhakrishnan. While the distinguished historian Dr. K.K. Dutta served as the founder Vice-Chancellor of this university. Currently, the University also enjoys the honor of being one of the largest universities in the state Bihar with nineteen constituent colleges, seventeen newly constituted Govt. Degree Colleges, and about thirty-nine affiliated Colleges spread over five districts of Magadh range: Gaya, Nawada, Jehanabad, Arwal and Aurangabad.

Magadh University grew to an excellence in teaching and research in different basic as well as applied subjects. Various courses like Graduation, Post-Graduation, and Ph.D. offer by university in more than twenty-six subjects under five different faculties: Science, Social Sciences, Humanities, Commerce, Management, and Education. A dedicated, well-stocked, and well established 'Manulal Central Library' has been the backbone of academic and research in the university campus. Parallel to this, University also run a number of vocational courses, like Mass Communication, Journalism, Library Sciences, Women Education, Yoga Education, Foreign Languages, etc. Further, University also have remarkable achievement in extra-curricular activities, like through NSS.
